

Shubha Das completed his Bachelor of Pharmacy from Birbhum Pharmacy School under Maulana Abul Kalam Azad University of Technology (MAKAUT), where he secured First Rank in the 2018-2022 batch. He subsequently completed his Master's (M. Pharm) degree in Pharmaceutical Chemistry from Jadavpur University. He qualified the GPAT and NIPER examinations in 2022 and has gained over four years of research experience.

His research interests include QSAR, molecular modeling, docking studies, toxicity modeling, and ecotoxicology. He is currently pursuing Ph.D. in the Department of Pharmaceutical Technology, Jadavpur University, under the guidance of Dr. Probir Kumar Ojha. He has authored 16 publications in reputed international journals, including one featured on a cover page. His work has received 86 citations and has an h-index of 5, reflecting the growing impact of his contributions to computational and predictive toxicology.
