

Christian Jorgensen studied chemistry at Oxford University, followed by a PhD in Chemistry at King's College London. He was a Postdoctoral Fellow with Peter Searson at Johns Hopkins, followed by a Postdoc at Georgetown University in Washington DC with Peter Olmsted. He was a Marie Sklodowska Curie Fellow at Aarhus University in Denmark, where he worked on multidrug resistance.

He joined the University of Portsmouth as a Senior Lecturer in Pharmaceutical Sciences in 2024. His interest is in computational biophysics, with a focus on complex membranes and membrane proteins.
