

Md. Iftehimul is working as a Research Associate at Bangladesh Agricultural University under the UK Government's Ocean Country Partnership Programme (OCP). He completed his graduation in Biotechnology, and his research interests span Cancer Biology and Infectious Diseases. He is also actively involved in high-throughput sequencing, bioinformatics, and computational biology, contributing to interdisciplinary approaches in biomedical research. To date, he has authored 10 research articles and 3 abstracts.

His achievements have been recognized with several prestigious fellowships, including the Bangladesh Agricultural University Research System (BAURES) MS Fellowship (2023–2024) and the National Science and Technology (NST) Fellowship, 2024, awarded by the Government of the People's Republic of Bangladesh to support young researchers for their outstanding contributions.
